

Mighty Mutt MPV-18

VACUUM SEALER

The Mighty Mutt is the vacuum sealer that handles the toughest vacuum packaging problems as well as the tightest budgets. It is an easy to operate economical vacuum sealer with a price lower than the least expensive fixed nozzle sealer. The Mighty Mutt provides high performance utilizing variable solid state controls for seal, dwell, and vacuum timing. All these functions are coupled with the ease of use of a retractable machine. The Mighty Mutt's lightweight design and all-metal construction mean portability as well as durability. The user-friendly retractable snorkel makes this entry-level unit a real winner. This machine is perfect for small to medium shops.

Note: Unit needs a compressor to operate. Option for a self-contained compressor is available.

- **Retractable Nozzle**
 - Increased productivity: A greater sustained vacuum flow means production speed will increase.
- **Stainless Steel Nozzle and Metal Construction**
 - Longer life: Lightweight all-metal construction and stainless steel nozzles ensures many years of quality performance.
- **Impulse Sealing System**
 - Increased productivity: No wasted warm-up time with a full ¼" flat high integrity seal.

- **OPTIONS**
 - sealer only
 - gas flush/purge
 - 220 Volt
 - self-contained compressor
 - heat top & bottom
- **ACCESSORIES**
 - barrier bags
 - tubing

Max. Seal Length	17.5"
Seal Width	0.25"
Electrical	115 VAC
Vacuum Pressure	20" Hg
Air Consumption	2.8 cfm
