

Film Dispensers

TD-300 Film Tubing Dispenser

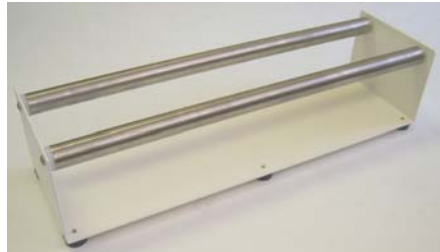

This dispenser is a great addition to the hand sealer with cutter to hold poly tubing. The dispenser can hold tubing up to 12" or less. The roller is made of a steel frame with a silicone rubber roller.

WRS SERIES Film Dispensers without Film Separator

These dispensers are for use with rolled films or poly bag tubing 10"-40" depending on the model of the film dispenser. All film dispensers are ivory in color to match the WH long hand sealer and are steel constructed. They are durable and sturdy with a non-slip base. An optional hold puncher is available.

WR-810	31"
WR-1060	42"

W SERIES Film Dispenser with Film Separator

This is for use with rolled films or poly tubing up to 40" wide. All film dispensers are ivory in color and steel constructed. They are durable and sturdy with a non-slip base. The dispenser comes with a built-in center fold bar (separator) which is used for separating and keeping the centerfold film open as it is being unwound.
